

Lock in market gains up to 252 times each year

Retirement solutions from
Corebridge Financial

Polaris® Variable Annuities with Polaris Income Plus Daily Flex® offer diverse investment options to help grow your assets and retirement income that's guaranteed to last as long as you live. By electing the optional Polaris Income Plus Daily Flex feature for an annual fee, you have the potential to capture investment gains every day—up to 252 times each year*—for more lifetime income. Here's how it works:

Hypothetical example assumptions: Polaris Income Plus Daily Flex Income Option 1 (single life), issue age 60, no purchase payments after contract issue, and no withdrawals prior to beginning lifetime income at age 65. Example shown is for illustrative purposes only and does not represent any particular investment. Performance illustrated is not indicative of future or past results. The Income Base is not the contract value and cannot be withdrawn in part or in a lump sum; it is equal to the initial purchase payment and may increase with the greater of daily step-ups or a 6% rising Minimum Income Base every year prior to starting lifetime income. The maximum annual withdrawal amount ranges from 3.30% to 8.75% of the Income Base, depending on the income option selected, the age when lifetime withdrawals begin, the number of individuals covered, and whether or not contract value remains. In this example, Donald's lifetime income will decline to 4.50% once the contract value is depleted. See the reverse side for more information.

* Based on the approximate number of trading days for the New York Stock Exchange.

- New Income Base
- Income Base
- Minimum Income Base: can increase by 6% (simple interest) annually on contract anniversaries before you activate lifetime income

Capture potential gains every day for more lifetime income

Talk to a Financial Professional about how a **Polaris Variable Annuity with Polaris Income Plus Daily Flex** can help provide the potential for daily step-ups.

Variable annuities are sold by prospectus only. The prospectus for each underlying fund as well as the variable annuity contract describe the investment objectives, risks, fees, charges, expenses, and other information for each, respectively. The statutory and summary prospectuses for each underlying fund and the variable annuity contract should be considered carefully before investing. Please contact your insurance and securities licensed financial professional or call 800-445-7862 to obtain any of those prospectuses, which should be read carefully before investing.

Variable annuities are a long-term investment designed for retirement purposes. Variable annuities are subject to investment risk, including the potential loss of principal. In the accumulation phase, they can help you build assets on a tax-deferred basis. In the income phase, they can provide you with guaranteed income through standard or optional features. Variable annuities are subject to costs that include a separate account fee, a contract maintenance fee, expenses related to the operation of the variable portfolios, and the costs associated with any optional features elected.

The Polaris Income Plus Daily Flex income protection feature is optional and available at contract issue for an additional annual fee. Age restrictions, investment requirements and limitations apply. Depending on your income needs and the performance of your investment options, you may not need to rely on the protection provided by the optional income protection feature. Only one income option feature may be elected. To realize the benefits of Polaris Income Plus Daily Flex, you must take withdrawals within the parameters of the feature.

Early withdrawals may be subject to withdrawal charges. Partial withdrawals may reduce benefits available under the contract as well as the amount available upon a full surrender. Withdrawals of taxable amounts are subject to ordinary income tax, and if taken prior to age 59½, an additional 10% federal tax may apply.
